

EMPLOYEE HEALTH SERVICE

FOR EMPLOYEES, VENDORS, CONSULTANTS/CONTRACTORS & NON-MEDICAL STUDENTS CHECKLIST

- QuantiFERON (*annually, if negative no further testing*)
 - if *INDETERMINATE or POSITIVE*, need CXR

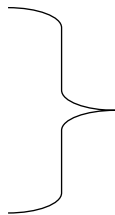

(-) PPD (Hardness <10mm), within 1 year, no further testing required

OR

(+) PPD → Needs *negative* CXR within 2 years

(+) QuantiFERON and (+) CXR → Treatment must be initiated by Infectious Disease or PCP who will also determine employee's ability to work

- Measles (*Rubeola*)
- Mumps
- Rubella
- Varicella

Numerical titer levels (*must be in range and resulted within past 5 years*). If results are low or equivocal, can receive 1 dose booster Varivax or MMR. Varivax titers must be rechecked in 1 week. MMR titers must be rechecked in 28 days. If one dose does not confer immunity, a second dose will be given. **Urine pregnancy test required (Females only)!**

- 10 – Panel Drug Screening (***Must be done here at WHMC EHS***)
- Hepatitis B (not necessary to receive vaccine)
- Seasonal Flu Vaccination (*option to decline*)
- Tecnol N-95 Fit Testing (*required if working in a clinical setting*)

(Lab Reports must be attached)
